CHAPTER 1

BNC Export Policy Statement

Goal: To maximize export sales while ensuring compliance with U.S export laws and regulations.

Berkeley Nucleonics is a leading supplier of electronic test instruments and has exported instrumentation worldwide since 1964. BNC is committed to maintaining an export management system that ensures compliance with export control requirements in daily operations. This Export Management Guide is meant to be a vehicle to capture the details of the US export laws as they apply specifically to our company, our products and our customers.

BNC is committed to ongoing compliance with all Export Administration Regulations.

Adherence to Export Administration Regulations (EAR) is a top priority at Berkeley Nucleonics. BNC is committed to providing all the resources necessary to ensure ongoing EAR
